

## COF ART CLASSES at YOUR SCHOOL

### Glass Fusion, Pottery and Canvas

COF Art Classes will encourage your children to delve into their imagination and develop their own personal style as they paint and create, whether they are a beginner or have previously acquired skills.

Art education teaches students visual literacy - how to interpret, criticize and use visual information to make choices based on what they see. We use a variety of materials and techniques in our classes. Art education strengthens problem solving and critical thinking skills and develops a sense of innovation which is important for people of all ages!

Each session takes Kindergarten - Grade 6, students to the next level as they explore various techniques and mediums.
